2B. Experience of Applicant, Subrecipient(s), and Other Partners

1. Describe your organization's (and subrecipient(s) if applicable) experience in effectively utilizing Federal funds and performing the activities proposed in the application.

Doorways of Northwest Florida has extensive experience effectively managing Federal funds and performing the activities proposed through this SSO-Coordinated Entry project. As the Lead Agency, Collaborative Applicant, HMIS Lead, and Coordinated Entry Lead for FL-515, Doorways coordinates the homeless response system across Bay, Calhoun, Gulf, Holmes, Jackson, and Washington Counties. Doorways currently administers Coordinated Entry throughout the six-county CoC, including assessment, prioritization, referral, provider coordination, HMIS data management, and system-level planning and monitoring.

Doorways has extensive experience administering HUD Continuum of Care Program funding and Emergency Solutions Grant funding and ensuring compliance with Federal requirements. The organization manages grant budgets and expenditures, conducts drawdowns and reimbursement processes, completes required programmatic and financial reporting, monitors performance and compliance, and provides technical assistance and oversight to funded partners. Doorways also maintains the financial management and internal control systems necessary to track grant expenditures and ensure funds are used for eligible activities.

Doorways' experience administering Coordinated Entry is supported by its role as the HMIS Lead for FL-515. Coordinated Entry assessments, referrals, and related participant information are managed through the CoC's HMIS, PromisSE, allowing Doorways to support consistent assessment and referral practices and use system-level data to identify needs and improve system performance. Doorways coordinates with homeless service providers throughout the CoC and uses ongoing provider communication, case conferencing, and system planning to strengthen access to housing and services.

The proposed project will build upon this existing infrastructure and Doorways' experience managing both Federal resources and the FL-515 Coordinated Entry system. CoC Program funds will strengthen the staffing and supportive-service capacity necessary to operate an accessible, coordinated, and data-informed entry process across the CoC's large six-county geographic area.

2. Describe your organization's (and subrecipient(s) if applicable) experience in leveraging Federal, State, local and private sector funds.

Doorways of Northwest Florida has extensive experience leveraging Federal, State, local, and private resources to support the FL-515 homeless response system and expand services available to individuals and families experiencing homelessness. As the CoC Lead Agency, Doorways coordinates multiple funding sources to address identified community needs while avoiding duplication of services and maximizing limited resources.

Doorways administers HUD Continuum of Care Program funding and receives and administers Emergency Solutions Grant (ESG) funding through the State of Florida. Doorways also manages State homelessness funding, including Challenge and TANF resources. These funding sources support coordinated entry, homelessness prevention, rapid rehousing, outreach, supportive services, HMIS, and other activities within the CoC. Doorways works with funded providers throughout the six-county geographic area to coordinate these resources and connect households to the most appropriate available assistance.

Doorways also leverages local and private-sector resources to supplement government funding and address needs that may not be eligible under Federal or State grants. This includes foundation and charitable funding, community partnerships, and in-kind resources. Doorways develops partnerships with local governments, nonprofit and faith-based organizations, housing providers, educational and early childhood organizations, and other community partners to expand the resources available through the homeless response system.

This diversified approach allows Doorways to combine and coordinate resources from multiple sectors, address gaps that cannot be supported by a single funding source, and strengthen the sustainability of Coordinated Entry and the broader FL-515 homeless response system.

3. Describe your organization’s (and subrecipient(s) if applicable) financial management structure.

Doorways of Northwest Florida maintains an established financial and grant management structure designed to ensure accountability, appropriate internal controls, and compliance with Federal, State, local, and private funding requirements. The organization maintains written financial management, procurement, and grant management policies that guide the administration and oversight of grant funds.

The Executive Director provides overall fiscal and grant oversight in coordination with financial, grants, and program staff. Grant expenditures are reviewed for allowability, appropriate allocation, and consistency with approved budgets and funding requirements. Revenues and expenditures are tracked by funding source, and grant spending is regularly reviewed against approved budgets to monitor expenditures, identify variances, and support timely and appropriate use of funds.

Doorways maintains supporting documentation for grant expenditures and completes reimbursement requests, drawdowns, financial reports, and programmatic reports in accordance with applicable grant requirements. Doorways currently administers subawards through State of Florida funding and has an established structure for reviewing subrecipient reimbursement requests and supporting documentation and monitoring expenditures, performance, and compliance. Although Doorways has not previously administered HUD CoC Program funds through subrecipients, these existing financial management and monitoring systems provide the structure necessary to administer Federal subawards in accordance with applicable HUD and Federal requirements if needed.

The Board of Directors provides additional fiscal oversight through review of organizational budgets and financial reports. Doorways complies with applicable Federal and State fiscal requirements, including applicable requirements of 2 CFR Part 200 and Single Audit requirements, and undergoes independent financial audits as required by law. Doorways also maintains processes to respond to monitoring feedback and technical assistance recommendations and implement corrective measures when necessary.

This financial management structure provides multiple levels of oversight and supports the responsible stewardship of Federal, State, local, and private resources.

4. Are there any unresolved HUD monitoring or OIG audit findings for any HUD grants (including ESG) under your organization? Yes

4a. Describe the unresolved monitoring or audit findings.

HUD conducted a Limited Financial Review of the CoC's SNAP grant from September 8–10, 2026. On September 30, 2026, Doorways received HUD's official closure letter and checklist via email identifying one open finding involving $120.25 in unsupported costs from a sampled voucher. Of the $23,815.50 voucher amount reviewed, HUD determined that $23,695.25 was supported. HUD requires Doorways to either provide supporting documentation demonstrating that the remaining $120.25 was an eligible grant cost or repay the unsupported amount and reuse the funds for an eligible expenditure. HUD provided 30 days from the date of the letter to complete the corrective action. Doorways is at the beginning of this 30-day corrective-action period and will timely complete the required action to resolve and close the finding.

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

The FL-515 Coordinated Entry project will expand consistent access to housing resources by providing standardized assessment, prioritization, referral, housing navigation, and system coordination across Bay, Calhoun, Gulf, Holmes, Jackson, and Washington Counties. As the CoC Lead Agency, HMIS Lead, and Coordinated Entry Lead, Doorways of Northwest Florida will provide the centralized coordination and infrastructure necessary to ensure individuals and families experiencing or at risk of homelessness can access the homeless response system and be connected to appropriate housing and services.

FL-515 encompasses a large six-county geographic area that includes both more densely populated communities and extensive rural areas. Limited transportation, dispersed services, varying provider capacity, and limited housing resources create barriers to accessing assistance, particularly in rural areas. The project will strengthen a coordinated system that allows households to access Coordinated Entry through multiple participating providers and outreach efforts rather than relying on a single physical access point.

Project activities will include Coordinated Entry system coordination; standardized assessment and prioritization; referral and housing navigation; maintenance and active management of the By-Name List; coordination with street outreach, housing, and service providers; weekly Coordinated Entry case conferencing; provider training and technical assistance; HMIS documentation and data quality; monitoring of referrals and outcomes; and ongoing evaluation and improvement of the Coordinated Entry process. Coordination between Coordinated Entry and street outreach will help identify and engage individuals who may not otherwise access available services.

Doorways will coordinate with CoC and ESG-funded providers, local governments, nonprofit and faith-based organizations, housing providers, and other community partners throughout the six-county area. Participating providers will assist households with access to Coordinated Entry, assessment, and connection to available resources. Weekly case conferencing will provide a structured process for providers to coordinate referrals, address barriers, and identify available housing and service options.

CoC Program funds will support the staffing and eligible supportive-service activities necessary to operate and strengthen Coordinated Entry, including assessment of service needs, case management, housing counseling and navigation, outreach, transportation, and other eligible activities necessary to connect households with appropriate housing and services.

Anticipated outcomes include increased access to Coordinated Entry throughout the six-county CoC; more consistent assessment, prioritization, and referral practices; improved coordination among providers; timely connections to available housing and services; improved HMIS and By-Name List data quality; and a more effective and data-informed homeless response system.

4. As an SSO-Coodinated Entry project answer the following questions:

4a. Will the coordinated entry process cover the CoC's entire geographic area? Yes

4b. Will the coordinated entry process be easily available and reachable by individuals and families seeking assistance? Yes

4c. Describe the advertisement strategy for the coordinated entry process and how it is designed to reach those with the highest barriers to accessing assistance.

FL-515 uses a multi-faceted strategy to advertise and expand awareness of Coordinated Entry throughout its six-county geographic area, particularly among individuals and families who may experience significant barriers to accessing assistance. Information about Coordinated Entry is shared through the Doorways website, CoC member agencies, homeless service providers, street outreach teams, local governments, faith-based organizations, and other community partners that regularly encounter individuals and families experiencing homelessness.

The CoC is also intentionally expanding awareness beyond the traditional homeless-service system. Doorways participates in community meetings and organizations, including Community Health Improvement Plan (CHIP) meetings, Chambers of Commerce, local government and community meetings, and other collaborative groups throughout the six counties. These relationships increase awareness of Coordinated Entry among organizations and community members who may encounter households experiencing homelessness and provide additional pathways for connecting those households to assistance.

Because transportation and geographic distance can create significant barriers, particularly in rural communities, access to Coordinated Entry is not dependent upon traveling to a single centralized location. Participating providers throughout the six counties can connect households to the Coordinated Entry process. Street outreach providers also bring access directly to individuals experiencing unsheltered homelessness who may not independently seek assistance.

Regular CoC communication, community engagement, provider training, and coordination with street outreach help ensure organizations understand how to connect households to Coordinated Entry. The CoC is also strengthening its website and communication methods and has expanded street outreach capacity to increase access throughout the geographic area.

Together, these strategies are designed to reach households facing barriers such as lack of transportation, rural isolation, limited access to technology, unsheltered homelessness, and unfamiliarity with the homeless service system.

4d. Will the coordinated entry process use a comprehensive, standardized assessment process? Yes

4e. Describe the standardized assessment and referral process that directs individuals and families to appropriate housing and services.

FL-515 operates a Coordinated Entry process across the six-county CoC and is currently working with HUD-provided technical assistance to strengthen and further standardize its assessment, prioritization, referral, and By-Name List processes. Households may access Coordinated Entry through participating providers and street outreach, with assessment and referral information documented in HMIS to support coordination across the system.

Trained staff assess individuals and families to identify housing and service needs, barriers, vulnerability, and eligibility for available resources. FL-515 is currently working through HUD technical assistance to finalize and implement an
enhanced standardized assessment tool and related prioritization procedures. This work will further strengthen consistency in how households are assessed and prioritized regardless of where they enter the Coordinated Entry system.

Doorways currently coordinates referrals to available housing and service resources based on household needs, eligibility, prioritization, and available program capacity. These include housing and supportive-service resources operated by State-funded and other community providers throughout the CoC. Housing navigation supports households in moving from referral toward housing placement and assists in addressing barriers that may delay or prevent a successful housing connection.

Doorways conducts weekly Coordinated Entry case conferencing with participating providers to review households needing housing, coordinate referrals and services, address barriers, and identify available resources. A separate weekly Street Outreach meeting provides ongoing coordination among outreach providers regarding individuals experiencing unsheltered homelessness, outreach activities, service needs, and available resources. Some street outreach providers also participate in Coordinated Entry case conferencing, strengthening communication between outreach and the housing referral process.

As part of the current HUD technical assistance work, FL-515 is also reestablishing an actively managed By-Name List that will strengthen systemwide prioritization, referral tracking, and follow-up. Doorways will use the By-Name List together with HMIS and weekly case conferencing to monitor referrals, identify delayed or unsuccessful connections, address barriers, and coordinate alternative resources when appropriate.

4f. If the coordinated entry process includes differences in access, entry, assessment, or referral for certain subpopulations, are those differences limited only to the following groups: Yes

(1) adults without children;
(2) adults accompanied by children;
(3) unaccompanied youth;
(4) households fleeing domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions (including human trafficking); and
(5) persons at risk of homelessness?

These VAWA cost categories can be added to a new project application to create a CoC VAWA Budget Line Item (BLI) in e-snaps and eLOCCS. The new BLI will be added to grant agreements and utilized the same as other CoC Program BLIs in e-snaps and eLOCCS.
